General Guidelines and Policies for Grant Submission

Introduction

The National Pancreas Foundation (NPF) is a private, non-profit organization established to support the funding of research related to pancreatic diseases. It also provides support for the men, women, and children who are suffering from diseases of the pancreas.

Eligibility

Applicants must be employed by an institution engaged in health related research within the United States. The applicant further must agree to be supervised by the institution at all times while conducting research supported by the NPF. In cases of a change in institutions while applying for, or utilizing funds from the NPF, applicants must notify the NPF, and will be subject to review based upon the change in circumstances.

The research must be in the field of pancreatic diseases. Studies intended to advance knowledge in the areas of pancreatic carcinoma, and all forms of pancreatitis would be the closest to the areas of interest of the NPF. Studies more closely related to diabetes will not be accepted.

Terms

Grants will be made for one year only. The maximum award will be \$50,000 for one year. Funding is to cover direct costs only, and costs should be reflected in the budget.

Selection Criteria

All proposals received and accepted for review will be reviewed by the Grant Review Council. The members of this committee are all physicians/researchers with special interests in the field of pancreatic diseases. They will review the proposals and make recommendations for funding based on the merit of the proposed research, including its relevance to the field of pancreatic diseases. The Committee will make a report to the Boards of Directors. Only by vote of the Board can proposals be accepted for funding. Applicants will be notified as to the actions of the Board soon after they meet.

Non-Profit Statement

The NPF is a non-profit organization under Section 501 (c)(3) of the Internal Revenue Code. Funding can only be granted to institutions that can attest to their similar non-profit status.

Preparation and Submission of Application

Preparation

Applicants should complete the original Research Grant Application provided by the NPF. In addition, using a single electronic file (Microsoft Word or Adobe PDF format), the application format should be as follows using the headings listed below.

- Title
- Abstract: limited to 300 words
- Specific Aims: maximum of one page with a clear description of the hypothesis being tested
- Background and Significance (maximum of two pages and should adequately cite literature pertinent to the area under investigation)
- Preliminary Data: If this application represents a resubmission, a description of what new information or data should be clearly outlined as well as any publications citing the NPF. Maximum of two pages.
- Proposed Studies and Methods: Anticipated results and pitfalls should also be included. Maximum of three pages.
- Literature cited:
- Budget Justification: Not more than one page. Justification for salary support and supplies and equipment listed in the budget page should be detailed.
- Biosketch and Other Support (maximum of 3 pages) should be submitted in NIH format for the Principal Investigator and other investigators listed in the application. Potential overlap with other funding should be clearly detailed.
- The original should be mailed before the deadline specified in the postings distributed by the NPF. The electronic version as a single file in Microsoft Word or Adobe PDF format should be submitted from the NPF website at www.pancreasfoundation.org/submitgrant
- The Principal Investigator and the Institutional Representative must sign the application before it will be accepted for review.
- The Abstract portion of the application should contain enough information to adequately explain the project and its relevance to the pancreas.
- The budget should be inclusive and for direct costs only. Justification is needed for all equipment purchases over \$ 500.00.

- The Attestation Statement must be read and signed by the Principal Investigator. Item number 8 refers to the Investigator's commitment that the research will be conducted under the supervision of an Institution at which appropriate standards and oversights are working.

Submission

One original of the entire grant application should be submitted to:

**The National Pancreas Foundation
364 Boylston Street, FL 4
Boston, MA 02116**

In addition, a single electronic file in Microsoft Word or Adobe PDF format as described above should be submitted from the NPF website at www.pancreasfoundation.org/submitgrant

Notification

The notification of the decision of the Board of Directors regarding funding will be mailed to the applicant and the Institutional Representative after the Board meets, usually in April.

ALL APPLICATIONS SHOULD BE RECEIVED BY JANUARY 16, 2009

Attestation Statement Regarding Indirect and Duplicate Costs

1. By affixing my signature below, I attest that I have read and will follow the following principles with regard to funding supplied to me by the National Pancreas Foundation (NPF).
2. The funds that I have applied for will be used to fund only the direct costs of the proposed research for which I am applying. I understand that at this time no funds are available for indirect costs.
3. I further understand that if duplicate funding for this project is obtained, at any time that I will immediately inform the NPF and withdraw my request for funding. In the event that any portion of the project is now being funded by, or in the future is funded, by another source, I will fully disclose that to the NPF.
4. Application shall be on the form provided by the Foundation. If the application is made by a research organization, such organization must be exempt from federal taxation under Section 501 (c)(3) of the Internal Revenue Code and must provide a copy of the determination letter issued by the Internal Revenue Service granting such exempt status.
5. The principle area of investigation shall be in the area of pancreatic disease and the proposed research shall serve to advance existing pancreatic disease research in accordance with Section 501 (c)(3) of the Internal Revenue Code.
6. The principal investigator's institution will be responsible for certifying to the Foundation that the research is conducting in accordance with current medical research standards and that is in compliance with the current guidelines of the U.S. Department of Health and Human Resources regarding Vertebrate Animals, Recombinant DNA, Research Misconduct, and Financial Conflict of Interest. The institution will further verify that any research involving human subjects or vertebrate animals has been approved by the necessary review boards and committees, in accordance with existing laws and regulations.
7. The Principal investigator shall submit a budget with the application and justification for budgetary items exceeding \$500.
8. The Principal investigator shall be required to submit a progress report no less than semiannually, summarizing research results and documenting costs with appropriate receipts.
